 Private Schools 3 Schools

Monthly Support Requested more Rs. 24,000 per month for at least 1 year or more

**Sterling UK : 194 £ / month
 US Dollars: 285 \$ / month**

A Drop in Center – its core activities

- i. Children enrolled walk into a drop in centre, first visiting a wash basin with a mirror, soap, towel and a comb: clean themselves, comb hair manage a big smile walking with confidence to their teacher, who would then take them through a routine.
- ii. A 10 minute chatting corner encounter called the 'gup shup' corner is important to unload stories /news of the day from each child, providing instant counseling and to gauge the moods of the children for appropriate activities.
- iii. The child, then walks into the learning room appropriate to her/his level of education. Prior to sitting down the child would first go to the hygiene chart boldly displayed for the month, to put a star of cleanliness under the gaze of the children and teacher, ' a yellow, green, or red' depending upon the conditions of the hands, face and hair – a symbol of self management and trust building. Each month the first five children who accumulated the maximum yellow stars would get a small prize " a soap bar, a toothpaste, a brush a comb etc'.
- iv. The formal learning or engagement with texts and books begins and the child's learning is fully tracked in the basic subjects in her/his individualized education portfolio. IEP is a very important tool that would help the child and her family in mainstreaming to formal schools (government or private).
- v. The learning options in the drop in centers have ranged from:
 - a) A catch up program for the drop outs (ages 6-15) after careful assessment of their skills in: reading, writing and arithmetic and comprehension
 - b) Readiness program for siblings of the children the very young (3-5 years) who were at risk and had not been enrolled as yet so that they could be prepared again on merit to enter the formal schools with confidence and good disposition.
 - c) Vocational training and livelihoods program (13-17 years) which is a mixture of literacy (multiple literacy) a vocational skills appropriate to gender and market demands, combined with life skills for adolescents/youth

Ultimate Aim is to protect children through safe options: complete removal from child labor ; Reducing hours of work; mainstreaming them into schools (public and private)

6	Monitoring (shared by ITA)		2000
	Sub Total		13.000
	Grand Total		24,000

A Case study:

CENTRE: ZIA COLONY

My name is **Zarqa Bibi**. I am 12 years old. I have 6 family members. Zahid, 5, and Ali, 6, are my younger brothers. My father's name is **Muhammad Irshad** (Late) and my mother's name is Shaheen Bibi. My father was literate but my mother is not. I belong to Dist Attock but we have been in Dhoke Mangtal since my childhood. We are living in a rented house in a congested street of Dhoke Mangtal. We do have electricity, gas, and water but sanitation is very poor, especially the drinking water is impure due to leakages in drinking water pipelines. We also have the facility of the water filtration plant approximately 200 yards away from our house. We regularly fetch water for the family from there.

Our family is facing money problems as well because we have to pay the rent and the utility bills. That's why my mother works as domestic labour in people's houses.

My family works together and earn round about Rs.4500/- per month easily.

Faizan is my elder brother, he left school after 9th class, he does not work anywhere, and he is very rude.

I had also been enjoying the pleasures of school.

Urdu was my favorite subject but I didn't like English, perhaps I found it very tough. I left my school from 4th class and started work with my mother. Now I am studying here (Aagahi Drop In Centre Zia Colony) taking vocational courses. I have also started my education again here. I am not working anymore. My family is very thankful to ITA, who enabled me to continue my education. My younger brothers are both studying here too. I think ITA gave me the hope that I could make progress in future. I will make great hard work for the betterment of myself and family and will never dwell on my past, as those who try, win and Insha'Allah I will be a winner!

ITA's Profile and Account Details
