

Kotri, Hyderabad and Badin visit details

21st September 2011

Last Day I visit Kotri worker Welfare College to monitor repair work. Which is little slow because of rain emergency situation. But I strictly instruct our vendor to complete work and to insure to meet deadline. I also ask college management that kindly owns your college because with lots of support staff resources class rooms and windows are unclean. I also pay first installment to start door repair and wood work which will be completed within week InshAllah.

Secondly I visit PIPHRO (NGO) office in Badin and meet Mr. Fayaz Hussain Abro President of PIPHRO (NGO) he is elder brother of Mr. Raiz who email us. He Share different options like Non food items, food items, and health and hygiene package distribution. Per unit cost of above options is very high. and PIPHRO credibility another issue.

I inform that ITA is interested in health and hygiene facility improvement program and learning and healing center or children friendly class rooms in schools where IDPs are living. But Mr. Fayaz Hussain Abro is interested in any program which is executed by his NGO and ITA provides resources and after completion of project ITA conducts monitoring activities etc.

We may ask Unilever to support ITA to make health and hygiene kits which consist of soaps, washbasin, and separate toilet for men and female, mosquito coils and net for preventing Dangi mosquito. We may provide water filtration unit to every camp.

I visit Government primary school in Yousif Shah village UC#1 District Badin where 32 families are living in which 66 children 43 women and 39 men. Ma'am I send you my visit picture with this email.

Shortage of time due to traffic jam because of road damage and PML (N) leader Nawaz Sharif visit District Badin. So I only visit one school. I also visit one camp where Save the Children (NGO) distributes World Food Program (WFP) food items packages to the IDPs. They are providing food items for next 3 to 5 months to all families.
